

Greiner Packaging at FACHPACK 2025: Packaging Solutions for a Circular World

From **September 23-25, 2025**, the packaging industry gathers once again in Nuremberg – and Greiner Packaging will be right at the heart of it. Under the motto “**Reduce, Reuse, Recycle**”, we’ll be presenting hands-on, forward-thinking solutions for food, beverage, and non-food applications in hall 4, booth 4-322.

Our message: Sustainability starts with design - and doesn't stop at innovation.

Packaging Solutions guided by Reduce, Reuse, Recycle

Reduce: Less material, same performance

The most sustainable material is the one that doesn't need to be used at all. We're showcasing lightweight packaging such as the Lightweight Bucket - stable, durable, and with a reduced CO₂ footprint.

Reuse: Packaging built to last

Our reusable drinking cups and meal boxes are designed for repeated use: robust, BPA-free, and dishwasher-safe. Perfect for deposit systems in gastronomy, event catering, or corporate canteens.

Recycle: Bringing packaging back into the loop

We're creating solutions that make recycling easier and more effective. Discover our latest K3® r100 cups, where cardboard and plastic automatically separate during the waste disposal process - along with other recyclable packaging designed to maximize recycling rates.

Experience Innovation live

At our booth, you will find a wide range of packaging innovations developed in our in-house design and prototyping studio, **DesPro**. From smart shapes and functional details to fresh designs that make packaging more efficient in everyday use:

- **Refill bottles:** A versatile bottle range for every use case, including our durable and stylish Kavodrink Premium Edition.
- **Cups:** Introducing the brand-new CUBO with its logistics-optimized design, plus thermoformed cups with tamper-evident closures.
- **Sealing lid trends:** Our Click In and Click On lids take conventional solutions to the next level.
- **New products for diverse applications:** Innovative bottle and can solutions for the nutrition and healthcare sector, next-gen spice mills, and practical snack cups.

Why you should visit us

FACHPACK is the perfect place to see how Greiner Packaging brings sustainability, design, and functionality together, creating packaging that not only looks good but also does good.

September 23-25, 2025

Hall 4, booth 4-322 | NürnbergMesse exhibition center, Nuremberg

We look forward to welcoming you and to shaping the packaging world of tomorrow together.

The graphic features a background with colored blocks: purple, grey, orange, tan, light blue, and green. In the top left, a circular icon says "Join the Circular REVOLUTION". In the top center, an orange speech bubble contains the word "FACHPACK" with a right-pointing arrow. In the center, there is a grey plastic bottle with a black cap, a white circular lid with a green seal and the text "greiner CLICK IN SEALING LID LEAK-PROOF. FULL PROTECTION.", and a blue cylindrical container with a floral design and the text "K3 r100 SELF-SEPARATION".
